

## Publicazioni di Vincenzo Perciavalle elencate su PubMed nel periodo 2007-2011

1. Valle MS, Casabona A, Bosco G, **Perciavalle V**. Spatial anisotropy in the encoding of 3D passive limb position by the spinocerebellum. *Neuroscience*, 2007, 144: 783-787.
2. Gulino R., Dimartino M., Casabona A., Lombardo S.A. and **Perciavalle V**. Synaptic plasticity modulates the spontaneous recovery of locomotion after spinal cord hemisection. *Neuroscience Research*, 2007, 57: 148-156.
3. Casabona A, Valle MS, Bosco G, **Perciavalle V**. Comparison of neuronal activities of external cuneate nucleus, spinocerebellar cortex and interpositus nucleus during passive movements of the rat's forelimb. *Neuroscience*, 2008, 157: 271-279.
4. Alagona G, Coco M, Rapisarda G, Costanzo E, Maci T., Restivo D., Maugeri A. and **Perciavalle V**, Changes of blood lactate levels after repetitive Transcranial Magnetic Stimulation. *Neuroscience Letters*, 2009, 450:111-113.
5. Coco M., Di Corrado D., Calogero R.A., Perciavalle Va., Maci T., **Perciavalle V.**, Attentional processes and blood lactate levels. *Brain Research* 2009, 1302:205-211
6. Coco M, Alagona G, Rapisarda G, Costanzo E, Calogero RA, Perciavalle Va, and **Perciavalle V**, Elevated blood lactate is associated with increased motor cortex excitability. *Somatosensory and Motor Research*, 2010, 27: 1-8.
7. Gulino R., **Perciavalle V**, and Gulisano M., Expression of cell fate determinants and plastic changes after neurotoxic lesion of adult mice spinal cord by Cholera Toxin-B Saporin. *European Journal of Neuroscience*, 2010; 31:1423-1434.
8. Casabona A., Bosco G., **Perciavalle V.** and Valle MS. Processing of limb kinematics in the interpositus nucleus (review). *The Cerebellum*, 2010; 9: 1-8.
9. Valle M.S., Bosco G., Casabona A., Garifoli A., Perciavalle Va., Coco M., **Perciavalle V**. Representation of movement velocity in the rat's interpositus nucleus during passive forelimb movements. *The Cerebellum*, 2010; 9: 249-258.
10. Pannuzzo G, Cardile V, Costantino-Ceccarini E, Alvares E, Mazzone D, **Perciavalle V**, A galactose-free diet enriched in soy isoflavones and antioxidants results in delayed onset of symptoms of Krabbe disease in twitcher mice. *Molecular Genetics and Metabolism*, 2010; 100: 234-240.
11. Perciavalle Va, Coco M, Alagona G, Maci T. and **Perciavalle V**, Gender differences in changes of motor cortex excitability during elevated blood lactate levels, *Somatosensory and Motor Research*, 2010; 27: 106-110.
12. Garifoli A., Laureanti F., Coco M., Perciavalle Va., Maci T. and **Perciavalle V.**, Neuronal NOS expression in rat's cuneate nuclei following passive forelimb movements and median nerve stimulations. *Archives Italiennes de Biologie*, 2010; 148: 339-350.
13. Coco M., Perciavalle Va., Maci T., Nicoletti F., Di Corrado D. and **Perciavalle V.**, The second-to-fourth digit ratio correlates with the rate of academic performance in medical school students. *Molecular Medicine Reports*, 2011; 4: 471-476.
14. Coco M, Alagona G, Perciavalle Va, Cicirata V. and **Perciavalle V**, Spinal cord excitability is not influenced by elevated blood lactate levels, *Somatosensory and Motor Research*, 2011, 28:1-6
15. Fagone P., Mangano K., Coco M., **Perciavalle V.**, Garotta G., Romao C. and Nicoletti F Therapeutic potential of Carbon Monoxide in Multiple Sclerosis. *Clinical and Experimental Immunology*, 2012, 167:179-187.
16. Lucchetti C., Lanzilotto M, **Perciavalle V**. and Bon L. Neuronal activity reflecting progression of trials in the pre-supplementary motor area of Macaque monkey: an expression of neuronal flexibility. *Neuroscience Letters*, 2012, 506:33-38.
