

## **PUBBLICAZIONI SCIENTIFICHE DEL PROF. ROBERTO CAMINITI (2007-2011)**

Battaglia-Mayer A, M Mascaro, R Caminiti (2007) Temporal evolution and strength of neural activity in parietal cortex during eye and hand movements, *Cerebral Cortex* 17:1350–1363.

Battaglia-Mayer A, R Caminiti (2008) Posterior parietal cortex and arm movements, in: LR Squire (Ed.), *Encyclopedia of Neuroscience*, vol 7 pp. 783-795. Oxford: Academic Press.

Caminiti R (2009) Replacement of animals in research will never be possible, *Nature*, 457, p 147.

Ferraina S, A Battaglia-Mayer, A Genovesio, P Archambault, R Caminiti (2009) Parietal encoding of action in depth, *Neuropsychologia* 47: 1409–1420.

Averbeck B, A Battaglia-Mayer, C Guglielmo, R Caminiti (2009) Statistical analysis of the parieto-frontal cognitive-motor network, *J Neurophysiol* 102, 1911-1920.

Archambault P, R Caminiti, A Battaglia-Mayer (2009) Cortical mechanisms for on-line control of hand movement trajectory. The role of the posterior parietal cortex. *Cereb Cortex* 19: 2848-2864.

Ferraina S, E Brunamonti, MA Giusti, S Costa, A Genovesio, R Caminiti (2009) Reaching in depth: Hand position dominates over binocular eye position in the rostral Superior Parietal Lobule, *J Neurosci* 29 (37): 11461-11470.

Caminiti R, H Ghaziri, R Galuske, PR Hof, GM Innocenti (2009) Evolution amplified processing with temporally-dispersed, slow, neural connectivity in primates. *PNAS*, 106:19551-19556.

Battaglia-Mayer A, and R Caminiti (2009) Visual Space Representation for Reaching, in: *Encyclopedia of Neuroscience*, M. Binder, N. Hirokawa, U. Windhorst (Eds.), Spinger 10.1007/978-3-540-29678-2\_6375.

Caminiti R, MV Chafee, A Battaglia-Mayer, B, Averbeck, DA Crowe, AP Georgopoulos. (2010) Understanding the parietal lobe syndrome from a neurophysiological and evolutionary perspective. *Europ J Neurosci* 31:2320–2340.

Innocenti GM, R Caminiti, PR Hof (2010) Fiber composition in the planum temporale sector of the corpus Callosum in chimpanzee and human. *Brain Struct Funct* 215:123-128.

Tomasi S, R Caminiti R, GM Innocenti (2011). Areal differences in diameter and length of corticofugal projections. *Cereb Cortex* (in press).
